Width:

11.000 inches

Thickness:

0.051 inches

Length:

6.000 inches

Attachment Method:

Adhesive

Basic Shape Style:

Rectangular

Marking Designation:

Legend

Inscription:

Torque instructions and schematic diagram for mk7 mod 1 with cooler

Features Provided:

Pressure sensitive adhesive tape

Color:

Black inscription

Material:

Aluminum alloy

Material Specification:

Qq-a-250/8, alloy 5052, h24 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 1, class 1 military specification 1st treatment response or mil-a-8625, type 2, class 1 military specification 2nd treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0

Mil-std (military Standard):

Mil-a-8625 spec.
