Width:

2.000 inches

Thickness:

0.050 inches

Length:

3.000 inches

Attachment Method:

Hole

Basic Shape Style:

Rectangular

Marking Designation:

Legend

Inscription:

1st inscription: douglas proofload verification; 2nd inscription: part no. Capacity, lbsdate inspected; 3rd inscription: vertical lines horizontal lines 1st side

Features Provided:

Reflective surface

Color:

Silver inscription and black, federal standard 595, 37038 inscription

Material:

Aluminum alloy

Material Specification:

Qq-a-250/8, alloy 5052, h34 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0

Mil-std (military Standard):

Mil-a-8625 spec.
