**Width:**

3.500 inches

**Thickness:**

0.125 inches

**Length:**

7.500 inches

**Attachment Method:**

Hole

**Basic Shape Style:**

Rectangular

**Marking Designation:**

Legend 1st side

**Inscription:**

Danger, when charging recuperator, cylinder, use air only or, nitrogen if compressed air, is not available., -do not use oxygen- 1st side

**Features Provided:**

Reflective surface

**Color:**

Red inscription background

**Material:**

Aluminum alloy

**Material Specification:**

Qq-a-601 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A528w0
