Width:

3.500 inches

Thickness:

0.125 inches

Length:

7.500 inches

Attachment Method:

Hole

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Danger, when charging recuperator, cylinder, use air only or, nitrogen if compressed air, is not available., -do not use oxygen- 1st side

Features Provided:

Reflective surface

Color:

Red inscription background

Material:

Aluminum alloy

Material Specification:

Qq-a-601 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A528w0
