#### Width:

3.500 inches

### Thickness:

0.125 inches

## Length:

7.500 inches

### Attachment Method:

Hole

### **Basic Shape Style:**

Rectangular

## **Marking Designation:**

Legend 1st side

#### Inscription:

Danger, when charging recuperator, cylinder, use air only or, nitrogen if compressed air, is not available., -do not use oxygen- 1st side

#### **Features Provided:**

Reflective surface

### Color:

Red inscription background

#### Material:

Aluminum alloy

## Material Specification:

Qq-a-601 federal specification single material response

#### Shelf Life:

N/a

#### Unit Of Measure:

---

## Demilitarization:

No

### Fiig:

A528w0
