Width:

4.250 inches

Thickness:

0.032 inches

Length:

5.000 inches

Attachment Method:

Hole

Environmental Protection:

Corrosion resistant and thermal shock resistant and weather resistant

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Partial legend, sub zero operating instructions, select one control lever and move it until truck engine begins to stall or hydraulic oil re 1st side

Color:

White inscription

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1, alloy 1100 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0
