**Width:**

4.250 inches

**Thickness:**

0.032 inches

**Length:**

5.000 inches

**Attachment Method:**

Hole

**Environmental Protection:**

Corrosion resistant and thermal shock resistant and weather resistant

**Basic Shape Style:**

Rectangular

**Marking Designation:**

Legend 1st side

**Inscription:**

Partial legend, sub zero operating instructions, select one control lever and move it until truck engine begins to stall or hydraulic oil re 1st side

**Color:**

White inscription

**Material:**

Aluminum alloy

**Material Specification:**

Qq-a-250/1, alloy 1100 federal specification single material response

**Surface Treatment:**

Anodize

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A528w0
