Width:

12.938 inches

Thickness:

0.028 inches

Length:

2.312 inches

Attachment Method:

Hole

Environmental Protection:

Corrosion resistant and salt spray resistant and thermal shock resistant and weather resistant

Basic Shape Style:

Rectangular

Marking Designation:

Legend

Inscription:

Inscribed with cooling system drain, road speed caution, front transmission, transfer case, and shift warning data

Color:

Natural inscription

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1, alloy 1100, h12 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0

Mil-std (military Standard):

Mil-a-8625 spec.
