Width:

2.000 inches

Thickness:

0.032 inches

Length:

3.000 inches

Attachment Method:

Hole

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

First inscription: motor generator; second inscription: ordnance no. 9132282 serial no. /-----/; third inscription: /-----/; fourth inscription: u.S. Weight 280 lbs; fifth inscription: contract no. /-----/ 1st side

Color:

Natural border

Material:

Aluminum alloy

Material Specification:

Qq-a-250/8, alloy 5052, h34 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A528w0
