Width:

6.875 inches

Thickness:

0.007 inches

Length:

7.125 inches

Attachment Method:

Adhesive

Environmental Protection:

Corrosion resistant

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Instructions for line filtertransmitter mod 16 1st side

Features Provided:

Pressure sensitive adhesive tape

Color:

Black inscription background

Material:

Aluminum

Material Specification:

Qq-a-1876 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0
