Width:

1.312 inches

Thickness:

0.030 inches

Length:

4.125 inches

Attachment Method:

Hole

Environmental Protection:

Abrasion resistant and altitude and hydrocarbon fuel and salt spray resistant and water resistant and weather resistant

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Partial legend, --- type no., --- volts, rectified ac system, --- serial no. --- part no., for use with a, cell system, rotation reversible, 1st side

Color:

White inscription

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1, alloy 1100 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0
