Width:

2.200 inches

Thickness:

0.032 inches

Length:

6.000 inches

Attachment Method:

Hole

Basic Shape Style:

Rectangular w/rounded ends

Marking Designation:

Legend 1st side

Inscription:

Partial legend to transfer load 1. Adjust rails to a level equal to rails of receiving trailer 2. Secure rail couplings by inserting pin th 1st side

Color:

Red and black inscription background

Material:

Aluminum alloy

Material Specification:

Qq-a-250/2, alloy 3003, h14 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A528w0
