Width:

0.937 inches

Thickness:

0.064 inches

Length:

2.875 inches

Attachment Method:

Hole

Basic Shape Style:

Crescent w/pointed ends

Marking Designation:

Legend 1st side

Inscription:

1st inscription: warning; 2nd inscription: deflate tire before loosening tie bolt nuts; 3rd inscription: tighten nuts with torque wrench to 20-30 in. Lbs 1st side

Color:

Red inscription

Material:

Aluminum alloy

Material Specification:

Qq-a-318, cond 1/2 hard-cancelled federal specification single material response

Fsc Application Data:

Wheel, landing gear acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A528w0
