**Width:**

3.250 inches

**Thickness:**

0.003 inches

**Length:**

4.000 inches

**Attachment Method:**

Adhesive

**Basic Shape Style:**

Rectangular

**Marking Designation:**

Legend 1st side

**Inscription:**

Partial legend caution the pneumatic bypass circuit should be used only when a lubricator or filter malfunction exists, or the temperature i 1st side

**Features Provided:**

Pressure sensitive adhesive tape

**Color:**

Black inscription

**Material:**

Aluminum

**Material Specification:**

Ams 7292, type 1145, h19 assn standard single material response

**Surface Treatment:**

Anodize

**Surface Treatment Specification:**

Mil-a-8625, type 1 military specification 1st treatment response or mil-a-8625, type 2 military specification 2nd treatment response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A528w0

**Mil-std (military Standard):**

Mil-a-8625 spec.
