Width:

3.250 inches

Thickness:

0.003 inches

Length:

4.000 inches

Attachment Method:

Adhesive

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Partial legend caution the pneumatic bypass circuit should be used only when a lubricator or filter malfunction exists, or the temperature i 1st side

Features Provided:

Pressure sensitive adhesive tape

Color:

Black inscription

Material:

Aluminum

Material Specification:

Ams 7292, type 1145, h19 assn standard single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 1 military specification 1st treatment response or mil-a-8625, type 2 military specification 2nd treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0

Mil-std (military Standard):

Mil-a-8625 spec.
