Width:

7.265 inches

Thickness:

0.020 inches

Length:

7.635 inches

Attachment Method:

Hole

Environmental Protection:

Abrasion resistant and accelerated light and acid resistant and heat and hydrocarbon fuel and salt spray resistant and weather resistant

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Partial legend operating instructions before starting check the following 1st side

Color:

Black inscription background

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1, alloy 1100 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0
