Width:

1.250 inches

Thickness:

0.032 inches

Length:

4.620 inches

Attachment Method:

Hole

Environmental Protection:

Corrosion resistant and weather resistant

Basic Shape Style:

Rectangular w/rounded ends

Marking Designation:

Legend 1st side

Inscription:

Equilibrator 8426930 no. --- 19--- mfd. By--- 1st side

Color:

Black inscription background

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1, alloy 1100, h12 federal specification 1st material response or qq-a-250/1, alloy 3003, h12 federal specification 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A528w0
