**Width:**

1.125 inches

**Thickness:**

0.020 inches

**Length:**

2.500 inches

**Attachment Method:**

Hole

**Environmental Protection:**

Corrosion resistant and hydrocarbon fuel and thermal shock resistant and weather resistant

**Basic Shape Style:**

Rectangular

**Marking Designation:**

Symbol 1st side

**Inscription:**

Plus sign 1 0 r plus sign 1 0 r 1st side

**Color:**

White, federal standard 595, 17875 inscription background

**Material:**

Aluminum alloy

**Material Specification:**

Qq-a-250/1, alloy 1100, h12 federal specification single material response

**Surface Treatment:**

Anodize

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A528w0
