Width:

1.625 inches

Thickness:

0.020 inches

Length:

6.000 inches

Attachment Method:

Hole

Environmental Protection:

Corrosion resistant and hydrocarbon fuel and thermal shock resistant and weather resistant

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Rotate handwheel 3 1/2 turns after float touches ground 1st side

Color:

White, federal standard 595, 17875 inscription

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1, alloy 1100 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0

Mil-std (military Standard):

Mil-a-8625 spec.
