Material Thickness:

0.020 inches

Body Length:

Between 0.614 inches and 0.634 inches

Color:

Natural

Material:

Aluminum alloy

Material Specification:

Qq-a-250/2, alloy 3003, h16 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A529t0

Mil-std (military Standard):

Mil-a-8625 spec.
