Width:

1.000 inches

Thickness:

0.032 inches

Length:

3.000 inches

Attachment Method:

Hole

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

1st inscription: amplifier electronic control klystron tuning; 2nd inscription: ---; 3rd inscription: ord no. 9186446; 4th inscription: serial no.

--- 1st side

Color:

Copper inscription

Material:

Aluminum alloy

Material Specification:

Qq-a-250/8, alloy 5052, h34 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0
