Width:

1.180 inches

Thickness:

0.020 inches

Length:

4.250 inches

Attachment Method:

Hole

Environmental Protection:

Abrasion resistant and carbon tetrachloride and corrosion resistant and heat and hydrocarbon fuel and moisture resistant and salt spray resistant and thermal shock resistant and weather resistant

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

U. S.Power unit 1st side

Color:

Black inscription background

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1, alloy 1100 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0
