Width:

7.380 inches

Thickness:

0.063 inches

Length:

10.000 inches

Attachment Method:

Hole

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Partial legend flow regulator setting for operation of impact wrench and fuel transfer pump flow regulator setting approximate flow output single side

Special Features:

Material: photosensitive metal, type 3, comp c, specification mil-p-514, type 1 or 2, class I per specification gg-p-455

Color:

Black inscription

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A528w0
