Width:

7.250 inches

Thickness:

0.020 inches

Length:

11.000 inches

Attachment Method:

Hole

Environmental Protection:

Abrasion resistant and acid resistant and hydrocarbon fuel

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Partial legend this heater is connected for 440 volts ac this side of this plate gives instructions for change from 440 to 220 volts ac. Rev single side

Color:

Black inscription background

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1, alloy 1100 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0
