Width:

36.000 inches

Thickness:

0.010 inches

Unable To Decode:

Unable to decode and unable to decode

Design Shape:

Triangle

Marking Designation:

Legend

Side Length:

36.000 inches

Inscription:

Yield

Features Provided:

Reflective surface

Special Features:

Reflectivity's standard

Material:

Plastic

Material Specification:

Fp-79, type 2, class 2 reflective sheeting federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A529r0
