Width:

36.000 inches

Thickness:

0.010 inches

Length:

36.000 inches

Design Shape:

Rectangular with pointed end

Marking Designation:

Symbol

Inscription:

School crossing

Features Provided:

Reflective surface

Special Features:

Reflectivity's standard

Material:

Plastic

Material Specification:

L-s-300 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A529r0
