Width:

Between 0.850 inches and 0.910 inches

Thickness:

0.032 inches

Length:

Between 6.160 inches and 6.220 inches

Attachment Method:

Hole

Environmental Protection:

Abrasion resistant and accelerated light and acid resistant and hydrocarbon fuel and salt spray resistant and temperature resistant

Basic Shape Style:

Rectangular

Marking Designation:

Legend

Inscription:

Gevaar de bestuurbaarheid en remwerking vermindert bij het slepen van een defect voertuig

Color:

White inscription

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1, alloy 1100 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0

Mil-std (military Standard):

Mil-a-8625 spec.
