Width:

0.810 inches

Thickness:

0.040 inches

Length:

9.520 inches

Attachment Method:

Hole

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Partial legend capacitance in uuf for fuel qty indicator calibration with baffled tanks outbd tank unit no.1&4 inbd tank unit no.2&3 aux tank 1st side

Material:

Aluminum alloy

Material Specification:

Qq-a-250/11, alloy 6061, t4 federal specification 1st material response or qq-a-250/11, alloy 6061, t6 federal specification 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0
