Width:

2.000 inches

Thickness:

0.032 inches

Length:

3.000 inches

Attachment Method:

Hole

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Partial legend sb-1505d/sp switchboard, signal distribution, radar supply 115v 1o 60 hz equipment serial --- navy department naval sea syste
1st side

Features Provided:

Reflective surface

Color:

Orange inscription background

Material:

Aluminum alloy

Material Specification:

Qq-a-250/2, alloy 3003 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0
