Width:

3.000 inches

Thickness:

0.020 inches

Length:

4.500 inches

Attachment Method:

Hole

End Application:

USEO-NR-EFU-ELIN

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

U.S. Army; suction hose kit-; forward area refueling equipment; nsn; part no.; mfd by; contract no.; date; serial no.; wt; lb 1st side

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1, alloy 1100, h12 federal specification 1st material response or qq-a-250/1, alloy 1100, h14 federal specification 2nd material response or qq-a-250/1, alloy 3003, h12 federal specification 3rd material response or qq-a-250/2, alloy 3003, h14 federal specification 4th material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0
