Width:

Between 0.355 inches and 0.395 inches

Thickness:

0.032 inches

Length:

Between 1.969 inches and 2.031 inches

Attachment Method:

Hole

Environmental Protection:

Moisture resistant

End Application:

U/o model rd-450/ash-33 recorder-reproducer, signal data, tape unit, digital, magnetic/dmtu/

Basic Shape Style:

Rectangular

Marking Designation:

Legend single side

Inscription:

Ser no jyt001 through jyt002 single side

Color:

Black, federal standard 595, 37038 single side inscription background

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1, alloy 1100, h14 federal specification 1st material response or qq-a-250/8, 5052, h22 federal specification 2nd material response

Surface Treatment:

Anodize

Specification Or Standard:

H type and 3 style

Departure From Cited Document:

Mil-p-15024/2, paragraph 6.1, serial number plate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0

Mil-std (military Standard):

Mil-p-15024 spec.
