Width:

0.800 inches

Thickness:

0.020 inches

Length:

1.250 inches

Attachment Method:

Cemented

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Confidential memory module unclassified when stored codes are zeroized 1st side

Special Features:

Photosensitive aluminum, mil-p-15024, type h, style iii; pressure sensitive adhesive on back, mil-p-19834, type 1; finish: background color matte black. Border, blocks and characters clear satin finish; used on xm247

Color:

Natural inscription

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1, alloy 1100 federal specification 1st material response or qq-a-250/2, alloy 3003, h14 federal specification 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0
