Width:

0.875 inches

Thickness:

0.020 inches

Length:

6.678 inches

Attachment Method:

Hole

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

1st inscription: detector, wind direction, speed and temperature : xm143; 2nd inscription: pn: 05-010- contract no. Date of mfr; 3rd inscription: nsn, 1090-01-073-7284 ser no. Bht no. 209-071-305; 4th inscription: mfr: k0656 marconi u.S. 1st side

Special Features:

4 mounting holes have diameter of 0.106 inch; all 4 corners are rounded

Material:

Aluminum alloy

Material Specification:

Qq-a-250/8, alloy 5052, h34 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0

Mil-std (military Standard):

Mil-a-8625 spec.
