Width:

3.000 inches

Thickness:

0.020 inches

Length:

4.500 inches

Attachment Method:

Hole

End Application:

6920-00-657-7533 target holding mechanism, trainfire, m31a1

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Partial legend nsn6920-00-657-7533 part no. 19200-8421679 mfd by contract no. Date: 19 inspected serial no. Wt lb 1st side

Features Provided:

Observation facility

Special Features:

4 holes diameter 0.125 is for construction 1.A only; if alternate construction metal foil is used, thickness should be 0.003

Color:

White inscription

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0
