Width:

1.250 inches

Thickness:

0.003 inches

Length:

3.000 inches

End Application:

Pacer dawn; nha p/n 95710000

Basic Shape Style:

Rectangular

Inscription:

Partial legend: coupler-mode select, instrument pn95700000-01 specification no.Zc8-84-019 contr --- nsn --- serno --- litton clifton precision special single side

Special Features:

Matl per mil-p-19834, type 1; anodize dyed black, color 37038 per fed-std595; remainder of legend is: devices fscm 86197 u.S.

Color:

Black inscription background

Material:

Aluminum alloy

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 1 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0

Mil-std (military Standard):

Mil-a-8625 spec.
