Width:

2.125 inches

Thickness:

0.0156 inches

Length:

3.250 inches

Attachment Method:

Hole

Basic Shape Style:

Rectangular

Inscription:

To set elevation; power drive a-end on newtral; line up surface of knowb with surface of indicator rod within .030 single side

Material:

Stainless steel

Material Specification:

Aisi 316 assn standard single material response or qq-s-766, class 316, cond 1/4h federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0
