Overall Length:
18.000 inches
Overall Height:
1.250 inches
Overall Width:
18.000 inches
End Application:
F414, turbofan engine
Criticality Code Justification:
Agav
Product Name:
Froduct Name.
Pusher, obp seal, combustion module
Pusher, obp seal, combustion module
Pusher, obp seal, combustion module Material:
Pusher, obp seal, combustion module Material: Stainless steel
Pusher, obp seal, combustion module Material: Stainless steel Shelf Life:
Pusher, obp seal, combustion module Material: Stainless steel Shelf Life: N/a
Pusher, obp seal, combustion module Material: Stainless steel Shelf Life: N/a
Pusher, obp seal, combustion module Material: Stainless steel Shelf Life: N/a Unit Of Measure:
